

## NEW Product Announcement

September 14, 2018

Dear Hart & Cooley Customer:

We are happy to re-introduce the smaller frame 45-degree fixed blade aluminum grille and filter grille. These new RH45 / RHF45 products will be available for order and immediate shipment starting on Monday, September 17. Stocked products will ship in 3 days, special order items will ship in 15 days. Please access the customer portal for a complete list of stock items and list prices.

The design of this re-introduced product mirrors the previous design with a 1-1/2" beveled frame, which is considerably smaller than the product you are currently receiving. It is important to note that the RH45 / RHF45 made in our Ojinaga facility is not immediately available in satin anodized. However, you can order this product in a **powder coat** aluminum finish.

The existing, larger frame product family will continue to be offered, renamed RH45LF / RHF45LF (LF indicates Large Frame). This product is easy to distinguish. It is packaged in a much larger carton. Should your contractor prefer a thumb screw option, RHF45LF will continue to offer this feature as well as be available in the satin anodized finish. Should you prefer the larger frame option, your purchase order MUST reflect the LF designator.

For example, a large frame 20" x 20" 45 degree fixed blade filter grille finished white would indicate a description of: RHF45**LF** 20 20 W

A small frame, re-introduced 20" x 20" 45 degree fixed blade filter grille finished white would indicate a description of: RHF45 20 20 W

If you have any questions regarding these products, please reach out to your Territory Sales Manager or call our experienced Customer Service Team at (800) 433-6341 for more information.

Sincerely,

Alisha Story  
Product Manager
